## To Our Valued Customers

We are aware of some advertising appearing in the local media lately and want to assure you that we do not charge 50% more than any of the prices advertised.

While the Government sets the price for PBS prescriptions, there may be a difference in the price of some private prescriptions (those not counted or subsidised by the PBS) but we want to assure you that our prices are very competitive.

As a small community pharmacy we may not always have the cheapest price but we welcome your queries or comments about all aspects of your medication, including price.

Yours sincerely

Peter Hibble
